4. Isi & simpan → kembali ke Home, list bertambah, Snackbar "ditambahkan"

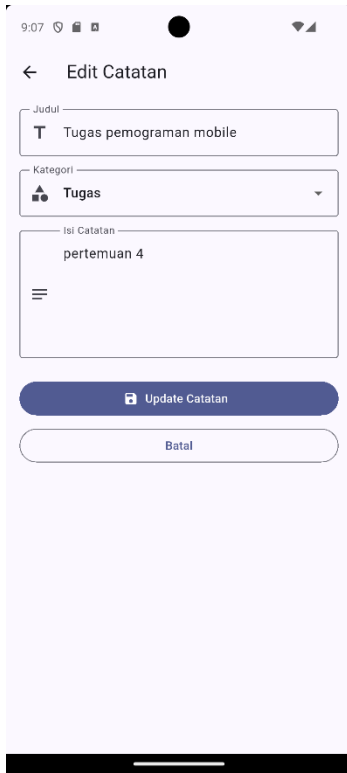

5. Tutup app paksa (swipe dari recent apps) → buka lagi → data masih ada
← inilah inti praktikum

Data masih tersimpan setelah app ditutup paksa

6. Tap item → halaman Detail muncul

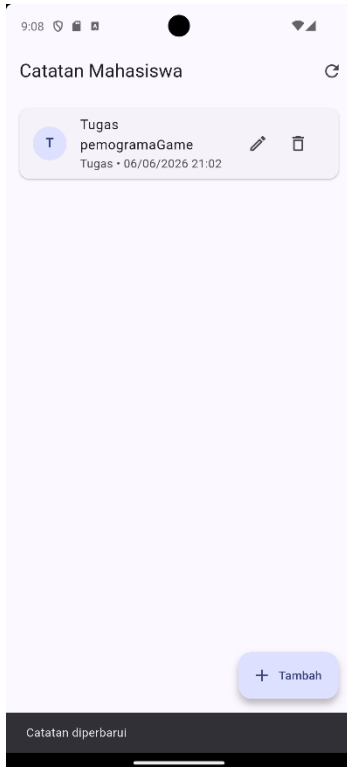

7. Tap ikon Edit di Detail → form muncul dengan judul "Edit Catatan" & field terisi

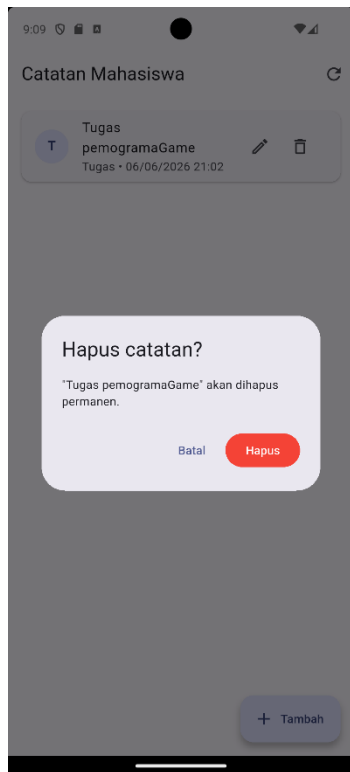

The screenshot shows the 'Edit Catatan' (Edit Note) screen. At the top, there is a back arrow and the title 'Edit Catatan'. Below the title, there are three input fields: 'Judul' (Title) with the text 'Tugas pemograman mobile', 'Kategori' (Category) with a dropdown menu showing 'Tugas', and 'Isi Catatan' (Note Content) with the text 'pertemuan 4'. At the bottom, there are two buttons: 'Update Catatan' (Update Note) and 'Batal' (Cancel).

8. Ubah judul → Simpan → kembali ke Home, item ter-update

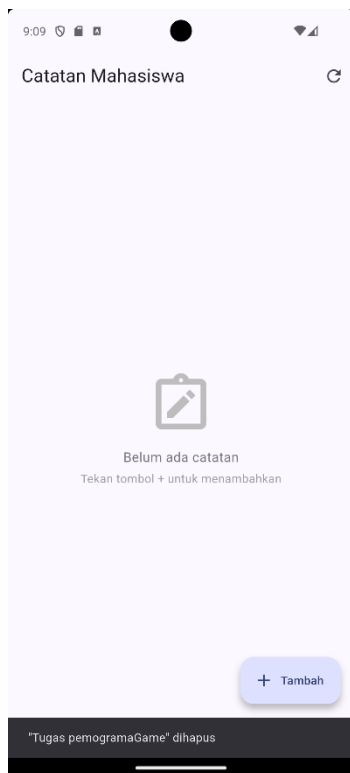

The screenshot shows the 'Catatan Mahasiswa' (Student Notes) screen. At the top, there is a title 'Catatan Mahasiswa' and a refresh icon. Below the title, there is a list of notes. The first note is titled 'Tugas pemogramanGame' and has a subtitle 'Tugas • 06/06/2026 21:02'. To the right of the note, there are icons for editing and deleting. At the bottom right, there is a button labeled '+ Tambah' (Add). At the bottom left, there is a status bar message 'Catatan diperbarui' (Note updated).

9. Tap ikon hapus → dialog muncul → tap Batal → tidak terhapus

10. Tap ikon hapus → dialog muncul → tap Hapus → item hilang

11. Hapus semua → empty state lagi
